ECO+
RESPONSIBLE CHOICE

OUR CONTRIBUTION TO A BETTER ENVIRONMENT

A large number of products, recognisable by the ECO+ logo, are selected based on one of the following sustainable criteria.

That may be because:

- ✓ these products contribute to a sustainable lifestyle **(Conscious Lifestyle)**.
- ✓ they are made from recycled materials **(Low or Less impact raw materials)**.

Focus on:

PVC free

PVC or Non-PVC; know which fabric backing you buy!

PVC backings contain dangerous chemical plasticizers in order to make the products flexible. These dangerous additives can be toxic to your health.

According to above reasons we have decided to focus on **PU and TPE backing** which is a greener and safer alternative to PVC. All our backs labelled ECO+ / with PVC free label have a PU or TPE backing instead of PVC. By giving away PVC free backpacks you contribute to the environment and guarantee safe usage for the user.

Characteristics:

PVC Free backing

- Same durability and quality as PVC
- No harmful plasticizers
- Environmental friendly
- Lighter material

COMPLIANCE

We strongly believe that offering safe and compliant products is the foundation of our business. Keeping your products safe starts with choosing the best responsible supplier that produces items in line with strict social, safety and quality standards throughout the total supply chain.

Product Safety/ internal testing

To ensure extra safety and high quality products, we take full responsibility by making extra efforts to guarantee the best products possible. Some examples of our additional efforts are as follows:

- ✓ High-end product standard checkpoints and guidelines for our total assortment.
- ✓ In-house QC (Quality Control) for every single outgoing order. We never skip an order.
- ✓ Additional strict in-house testing for ROHS on each batch. We keep records.
- ✓ Item and packaging with correct compliance logos and details.
- ✓ 30+ years of experience with internal Quality Control and Quality Assurance.
- ✓ We do not take random test reports from factories for granted.
- ✓ Legible and verified professional manuals which are easy to use.
- ✓ In-house engineers test each batch to make sure they comply and are in line with previously ordered batches.
- ✓ Each product is tested by a qualified testing agency and certified according to the compliance requirement (CE Directive, REACH).

RoHS

SLEEVES & INDIVIDUAL PERSONALISATION

Celebrating an anniversary, a graduation or a promotion is a memorable moment. Make it even more momentous by adding the event and the receiver's name to the gift, making it an occasion and a gift to remember!

WRAPPING

Have all your gifts wrapped using one of our carefully selected wrapping papers. It is not only a pleasure to give away a nicely wrapped gift, a wrapped gift also makes the gift-receiving experience more exciting and memorable.

Wrapping paper options

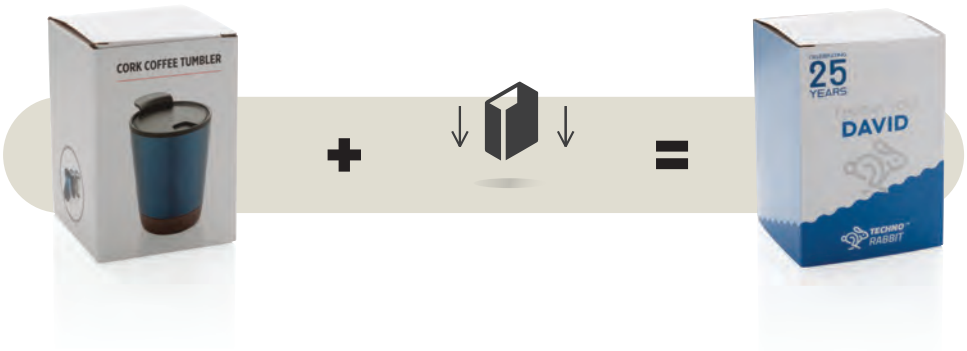

Stars | Silver Dots | Royal Eco | Jingle Bells | Metallic Blue | Silver Swirl

RECAP

As you can see, making a gift more personal is very easy. Brand your product by choosing a print technique that suits best. Also take into account the option to personalise every product with an unique name. Then create a beautiful designed sleeve with the message you want to communicate. And then last but not least make it even more festive with a wrapping paper. Now that's going to be a moment you and the receiver never will forget.

MYLOGO

WHY BAMBOO?

Using natural fibres like bamboo reduces the amount of plastic used in every product.

CHARACTERISTICS BAMBOO

Bamboo is a highly sustainable plant. Bamboo can grow to full size in just 3-4 months, compared to standard trees which can take 30+ years to grow.

Pesticides and chemicals aren't required when harvesting bamboo. This means the cultivation is natural, and never harms the environment.

Bamboo is very strong and durable which makes it reusable for a long time.

Bamboo development reduces pollution; its plants reduce up to 35% carbon dioxide in the climate and deliver more oxygen then standard trees.

Elle Fashion, anti-theft backpack

The Elle Fashion is not just a fashionable backpack; it also protects you from getting pickpocketed. With hidden zippers there is no way of getting into the backpack while being carried. However strategically placed hidden pockets on the back of the backpack will give you, as the user, easy access to smaller items when needed. The front of the backpack is protected with a PP board inside which will prevent thieves from cutting through the backpack and reflective strips on the front will ensure your night safety. This backpack will make sure your belongings will stay safe while keeping it fashionable. Registered design®

Bobby Duffle anti-theft travel bag

Bobby Duffle is your safest and most sustainable solution in anti-theft travel bags. The backpack is a carry-on approved travel size and has a capacity of 34 litres; making it perfect for short trips. The multi-purpose strap and carry system make it easy to go from backpack to duffle bag. It has a spacious compartment with interior dividers as well as a padded laptop compartment, which holds a 17" laptop and is made from rPET material. Includes iconic anti-theft features such as: hidden zippers & hidden RFID protected pockets, anti-cut protection and lockable zippers. Equipped with a waterproof pocket to store your wet umbrella and breathable shoe pocket on the bottom. Registered design®

Bopp Fruit infuser bottle

Bopp Fruit helps you with your daily intake of water and vitamins. The fruit basket reaches to the bottom of the bottle allowing for a maximum infusion. The iconic coloured opening on top makes it easy to carry the 650ml bottle so you can enjoy your infused water anywhere you like. The use of Tritan material keeps wear and tear to a minimum, making Bopp Fruit very durable. Registered design®
