BUSINESS STRATEGY

Acer for Business focuses on supporting customers' technological needs and business growth through its strategic partners, innovative solutions, and business best practices.

OUR STRENGTHS

EXPERIENCE

With 46 years of experience in the world of computing, we can help you deliver superior business solutions that best fulfil your customers' requirements.

SERVICE

Acer partners and customers are offered outstanding assistance, including technical support, a collect-and-return service, updates on the latest technologies, and online training.

RELIABILITY

Acer offers a wide range of innovative features and products that are built and tested to last.

Our reliability is top class, and if a product is repaired under warranty within the first year after purchase, Acer will refund 100% of the price paid.

SUCCESS

Acer's business model has an exclusive focus on the channel and it's designed to support partners to meet customer needs.

SUPPORT

Acer supports partners and their customers at all levels and our compelling tools and channel programs are designed to make it easy to work with Acer.

RANGE

Acer provides channel partners with a comprehensive range of products and solutions designed to deliver the best performance, security and manageability.

ACER VERO

From PCs to peripherals, Vero devices were conceived as environmentally-friendly products aimed at organisations which champion sustainable practices, using technology not only to drive innovation forward, but to minimise the impact on the environment for the entire lifecycle of the device.

TravelMate Vero

MAKE YOUR GREEN MARK

Made from recycled materials for less harm and more earthy goodness, the TravelMate Vero combines all the power, security, and manageability businesses need, in an eco-friendly business laptop designed for working in the office or on the move.

30% PCR¹ plastic chassis and screen bezel and 50% on keycaps

15.6"

15.6" FHD IPS display with Microsoft Cortana

11th Gen Intel® Core™ i7 processor

Up to 16 GB of rapid DDR4 memory

¹ for 'Post-Consumer Recycled'.

Chromebook Enterprise Vero 514

ECO-FRIENDLY, UNLOCKED PRODUCTIVITY

Embrace the spirit of professional sustainability with this eco-conscious Chromebook made from 30% PCR plastic, with up to the latest 12th Gen Intel® Core™ i7 processors and the business capabilities of the Chrome Enterprise Upgrade already unlocked.

-  30% PCR plastic in the chassis and screen bezel and 50% in the keycaps
-  OceanGlass™ touchpad with sleek, glass-like tactile feel
-  MIL-STD-810H4 certified
-  Unlocked Chrome Enterprise Upgrade

Veriton Vero All-In-One

ALL GREEN, ALL-IN-ONE

The Veriton Vero All-in-One computer for business is a space-saving green AIO that considers sustainability with its EPEAT® Gold rating and eco-friendly design while delivering outstanding visuals, performance and security.

-  41.8% PCR plastic used and 100% recyclable packaging materials
-  EPEAT® Gold registration
-  Up to the latest Intel® Core™ processors and NVIDIA® GeForce®
-  24" FHD IPS touchscreen display with narrow bezel design and 88% screen-to-body ratio

Veriton Vero Mini

MINI PC, HUGE STATEMENT

The eco-friendly Veriton Vero Mini PC provides commercial-grade performance and ultra-fast responsiveness from the latest Intel® Core™ processors without the need for a bulky tower, all while utilising post-consumer recycled (PCR) plastics.

Up to the latest 12th Gen Intel Core™ Processors

Made with 25% Post-consumer Recycled (PCR) Plastics

100% Recycled Plastic Packaging & 100% Recyclable Box

Vero BR7 series

SUSTAINABLE MONITOR

Fully ENERGY STAR®, TCO, and EPEAT certified reflecting Acer's commitment to the environment, this ergonomically designed monitor is made with more than 65% post-consumer recycled (PCR) plastic and the packaging is 100% recyclable.

ENERGY STAR®, TCO and EPEAT certified

Acer ErgoStand for tilt, swivel, height, and pivot adjustment

Acer VisionCare technology suite to reduce eye strain

23.8" and 27" IPS FHD screen sizes

Vero CB3 series

A CLEARER, GREENER VISION

Energy-efficient, sustainable and safe for the environment, the Vero CB3 monitor features a 27-inch IPS display with up to WQHD resolution, for an eco-friendly enhanced working station.

-  85% PCR plastic and 5% ocean-bound plastic
-  ENERGY STAR®, TCO and EPEAT® certified
-  Built-in KVM switch, USB Type-C port and RJ45 port
-  TUV/Eyesafe® certified and Acer VisionCare 2.0 for a comfortable vision

Vero CB1 series

SUSTAINABLE MONITOR

Featuring QHD (2560 X 1440) IPS panels with Delta E <1 colour accuracy, Acer Vero CB1 series gives you wider viewing angles and high contrast ratios, so that you always have a great viewing experience. And with the ENERGY STAR®, TCO and EPEAT® certification, you get your work done while respecting the environment.

QHD (2560 X 1440) IPS panels with Delta E <1 colour accuracy

TUV/Eyesafe® certified with Acer VisionCare 2.0 eye-protecting technologies

Made using 85% PCR and 5% ocean-bound plastics

ENERGY STAR®, TCO and EPEAT® certified

Vero PD2325

POWER SAVING GREEN LED PROJECTOR

Thoughtfully designed to adapt to the planet's needs, it comes with 50% PCR plastic in the chassis, higher efficiency than lamp model with up to 50% energy saving.

It features 2.300 lumens of LED light source with 30.000 hours lamp life with low TCO and achieves an extended 125% Rec. 709 wide colour gamut and reproduces accurate colour balance.

DLP 3D ready

WXGA 1280x800 wide format

1.1X zoom, TR1.55~1.7 (87" @2.9m)

28dB in Eco mode

Vero Mouse

Made with recycled materials, the Vero Mouse is wireless for up to ten metres and ergonomically designed for comfortable use, whether you're a lefty or a righty.

1200 DPI

2.4 GHz wireless with 10 metre range

Smooth & silent scrolling wheel

30% ABS (Post-Industrial recycled)

Vero Mousepad

Protect your surfaces and the environment with the Vero Mousepad. Made from recycled plastic bottles and recycled natural rubber for a non-slip base.

100% rPET surface

80% recycled natural rubber bottom

Up to 95% recycled materials used

Vero Keyboard

Partially made from recycled plastics, the Acer Vero Keyboard features a resilient rubber dome supporting up to 82 standard keys, each with a durable lifespan of up to 5 million strokes. It's made from 30% post-consumer recycled (PCR) plastic and its unique environmentally friendly material look makes it perfect for the eco-conscience user's workstation.

-  Up to 12 hours battery life [2xAAA]
-  2.4 GHz wireless with 10-meter operating range
-  Up to 10 mt cord length
-  65% PCR / OBP

Vero Dongle

Connect from anywhere at 5G speeds up to 2.7Gbps with the Vero 5G Dongle. Made out of PCR plastic, it's an eco-conscious choice to stay productive and connected while on the go.

- Eco-friendly design
- Active cooling
- Hyper routing
- Easy set-up via USB 3.1 Type-C

Vero Eco Sleeve

Protect your laptop and the environment with the Vero Eco Sleeve. Made from recycled plastic bottles, the Vero Eco Sleeve fits most 15.6" laptops and features a front pocket to extend your storage.

-  100% rPET Material
-  Front Pocket Storage
-  Suitable for Most 15.6" Laptops

STUNNING DESIGN FOR STUNNING CREATIVITY

Designed with prosumers in mind, the Acer CBL2 series features a ZeroFrame design that virtually removes the display bounding box and gives a seamless visual enjoyment. This Free Sync monitor series delivers a smooth, fluid, and highly responsive viewing experience.

 23.8" to 28" IPS ZeroFrame design

 Ergonomic design for easy tilt, pivot, swivel and height adjustments

 Acer Vision Care 2.0 and TUV Low blue light certification

V7 series

ESSENTIAL TO PRODUCTIVITY

Acer V7 series monitors aim to provide good re-liability and stability on top of its unrivalled professional performance. Its Acer VisionCare makes sure you enjoy the comfy viewing experience from daily computing.

 21.5"/23.8"/27" FHD/WQHD/UHD

 HDMI+Optional DP/spk

 Zero Frame Design

A man in a dark suit and blue tie stands at the front of a conference room, gesturing towards a large projector screen. The audience, seen from behind, is seated at long tables and clapping. The room has a modern design with a white ceiling and a large window on the right. A projector is mounted on the ceiling.

Product Portfolio

PROJECTOR RANGE

Acer projectors combine brilliant displays, high resolutions and colour enhancing features to deliver crystal clear visuals, and exceptional brightness and contrast ratio in any venue.

LASER TECHNOLOGY

The 5,000 or more lumens generate crisp and vivid images even in bright and large environments, guaranteeing high image quality. Unlike conventional lamp-based projectors, laser projectors switch on in 12 seconds without the need for any warm-up or cooling. Laser is also a mercury-free light source.

CASTMASTER TOUCH

Acer CastMaster Touch is a wireless presentation system that crosses platforms and fits all meeting rooms. It enhances meeting efficiency by sharing screens wirelessly and switching between all transmitter boxes quickly, while offering up to 32 user connections simultaneously.

LED LIGHT SOURCE

LED lighting lets you enjoy outstanding colour performance with up to 130% Rec. 709 wide colour gamut, creating vibrant visuals and delivering consistent colour saturation.

Its greater bulb durability provides up to 30,000 hours long lifespan. In addition, by eliminating the potential pollution from mercury lamp disposal, your projector is free from environmentally hazardous substances.

LASER projector series

FASTER AND BRIGHTER

No venue is too big for the FL8 or PL laser projector series. The laser light source delivers 6,000 [PL7 series] and 12,000 [FL8 series] lumens of brightness for crystal-clear images even in well-lit spaces, as well as being efficient, eco-friendly and long-lasting. HTBase™ support on PL7610T/PL6610T allows projection of UHD content, audio and more.

Superior energy-efficient laser light source with rich and accurate colours

360° projection with lens shift and keystone correction

24/7 operation and LAN control supported

WIRELESS projector series

HASSLE-FREE PRESENTATIONS

The convenient and flexible P and X projector series provides SMB users with brilliantly sharp visuals that can keep meetings focused. The P and X projectors offer a wide range of connectivity options with mobile USB display function or Wi-Fi dongle.

LAN control & LAN projection

Up to 5,500 lumens brightness

Screen Mirroring (Miracast) support for Win10, Android and iOS

LED PORTABLE projector series

ANYWHERE PROJECTION

The Acer B250i and Acer C250i are Full HD portable LED projectors with superb A/V quality and a compact design, enabling them to be conveniently taken on the go. The C250i model supports the world's first auto-portrait mode so settings don't require adjustment to mirror the smartphone's screen orientation without black bars on the side, while the B250i model features Studio sound.

-  100% plug-and-playable with plenty of wireless and wired connectivity options
-  Built-in speakers and Waves Maxx® Audio on B250i
-  Stand-free multi-angle projection on C250i

S & UL series

THE BIG PICTURE, UP CLOSE

Designed to take interactivity and collaboration in the classroom to the next level, Acer UL5 & S1 projectors integrate all the features that are important for schools, such as ultrashort throw / short throw projection, Acer Smart Touch Kit support, and wireless projection capability.

-  Up to 4,500 lumens
-  Crestron® Network control
-  Support interactive function with optional Acer Smart Touch Kit

FUTURE PROOF PRODUCTIVITY

The Acer Add-In-One 24 combines an Acer Chromebox and a docking monitor to provide an experience similar to an all-in-one Chromebase. The Chromebox features Intel vPro® and up to a 12th Gen Intel® Core™ processor, connecting to the back of the monitor for a convenient, future-proof office setup.

-  Intel® vPro® and up to a 12th Gen Intel® Core™ processor
-  Modular, future-proof design
-  23.8" FHD IPS narrow bezel display with optional touch functionality
-  Built-in AI Noise Reduction

Chromebox Enterprise CXI4

POWERFUL FOR DAILY TASKS

Chromebox Enterprise CXI4 delivers the performance to improve your business productivity. In addition to the existing apps in Chrome Web Store, users can now get access to over 2 million Android apps from Google Play Store for office productivity under different categories.

-  Up to 10th Gen Intel® Core™ processors
-  Chrome Enterprise Upgrade enabled
-  Wi-Fi 6 and Bluetooth 5.1 connectivity

Chromebox Enterprise CXI5

PRODUCTIVITY OUT OF THE BOX

Chromebox Enterprise CXI5 comes with even more performance and features to increase business productivity. It's easy to set up with up to four external displays, it has integrated malware protection and offers a variety of premium features from Google, right out of the box.

-  Intel® vPro® and up to a 12th Gen Intel® Core™ i7 processor
-  Chrome Enterprise Upgrade enabled
-  Wi-Fi 6E and an RJ45 2.5G Gigabit Ethernet connectivity
-  Full-function USB Type-C and dual HDMI 2.1 ports

EDUCATION

Acer for Education is thinking beyond the classroom. Our products and services are suitable across multiple generations, such as K12, Hi-Ed, gamers, libraries, short courses and more, because we believe no one ever stops learning.

Acer for Education ecosystem offers an extensive range of eco-friendly devices, in addition to proprietary and third-party software solutions, while working in synergy with several organisations and partners in order to provide knowledge and tools catered around teaching and learning needs and educational environments.

One of Acer's greatest goals is to minimise the impact of its products on the environment. We carefully consider environmental factors in every stage of the product life cycle: during design, through packaging and shipping, to usage and recycling.

INSPIRE DAILY.
LEARN ALWAYS.

DIGITAL SCHOOL

Acer for Education digital school devices are designed and built to offer performance and ease of use and they also pass Military Standard 810-G tests to stand up to the rigours of school life. As a result, Acer for Education devices are reliable companions for all school activities and can survive drops and water spills to stay at students' side in their journey towards their future.

ESPORTS IN EDUCATION

The 21st-century learner is expected to be a critical thinker, make informed judgments, be a creative problem solver, communicate and collaborate with others, use information in innovative ways, and take responsibility for himself and others. Esports in Education provides an avenue for all of these soft skills to be in play and opens the door for new careers like analyst, pro player, coaching and many others.

Chromebook 511 [C741LT]

POWERFUL 4G MOBILITY

With built-in 4G LTE, students will always have access to their work, applications, learning materials, and remote classrooms even if Wi-Fi is out of range. Zero-touch enrollment allows school IT departments to remotely and automatically enrol this Chrome device as soon as it is connected to the internet – reducing the effort and hassle needed when deploying a large number of devices.

Qualcomm® Snapdragon™ 7c Compute Platform

Built-in 4G LTE connection

Military Standard (MIL-STD 810H1) tested

Chromebook Spin 511/512 FUTUREPROOF DESIGN

Start thinking outside the box with the Acer Chrome - book Spin 511 and 512 convertibles. With their 4 usage modes, world-facing camera, garageable pen, military durability, and long battery life, these Chromebooks allow students to stay engaged and ready to achieve more in the classroom.

IPS display, EMR pen and 88-degree wide angle lens camera

Anchored/replaceable spill resistant keyboard, anti-bacterial

U.S. Military Standard (MIL-STD 810H) compliant

Chromebook 511 [C734/T]

REDUCE, REUSE, RECYCLE

Not only is this Chromebook one of the best laptops for students on the market today, but it also comes with a unique OceanGlass™ touchpad that helps reduce waste in the environment. Students will stay engaged and ready to achieve more in the classroom with a state-of-the-art processor, military durability, and long battery life.

 PCR plastic chassis with OceanGlass™ touchpad

 11,6" Full HD IPS display

 MIL-STD 810H compliant

Chromebook 512 [C852/T]

A GREAT ALLROUNDER

This Chromebook is one of few 3:2 aspect ratio laptops on the market today, offering 18% more vertical screen space than a traditional 16:9.

It also sports a reinforced design for long-term usage: widened brackets and reinforced IO ports protect against rough play while the drainage design of the keyboard protects internal components from upwards of 330ml of liquid spillage.

 12-inch HD display, 3:2 aspect ratio

 Spill resistant, anchored keys, easy fix keyboard

 MIL STD compliant

TravelMate B5

A BIGGER VIEW FOR LEARNING

The high-performing and ultra-durable TravelMate B5 will boost your learning experience with its 14" FHD display, serviceable keyboard with mechanically anchored keys, and HD webcam with built-in camera shutter.

Up to 12th Gen® Intel® Core™ i3 processors

14" HD or FHD display

Acer User Sensing Technology with Screen Distance and Break Reminder

MIL-STD 810H

TravelMate B3

A NEW WAY OF LEARNING

The TravelMate B3 series notebooks are tailor-made for the education market. Portable, robust and great for wireless sharing, the B3 series gives users long battery life to meet the new challenges of teaching and learning.

-  All-round bumpers with Built-in camera shutter
-  Less than 1.4 kg
-  MIL-STD 810H Compliant
-  Spill-resistant Keyboard with mechanically anchored keys
-  Up to 12 hours of battery life in one charge

TravelMate Spin B3

A GREAT ALLROUNDER

The TravelMate Spin B3 is designed with Education in mind. With its 11.6-inch display and convertible design, it brings versatility to the classroom by transforming into stand mode or tent mode to facilitate group discussions and class presentations. It is also designed to withstand the hustle and bustle of the classroom environment, making it perfect for the most active students.

-  MIL-STD 810H compliant
-  Optional Wacom AES pen
-  Second world Facing 5.0MP camera
-  Up to 12 hours of battery life
-  USB Type-C port for data, charging and display

RUGGED COMPUTING

Acer's rugged devices represent a reliable tool for workers to increase 'Work Efficiency' & 'Productivity' on the field. Designed for field and core field workers from automotive, Acer aims at providing a full line-up of semi and fully rugged products able to cover a variety of vertical segments like public safety, transportation, health care, logistics, warehouse and many more.

MILITARY GRADE RUGGEDNESS

Engineered to withstand drops onto the hardest flooring, those rugged devices have been constructed using shock-absorbent materials and independently certified to withstand drops, falls and water ingress. MIL-STD 810G and IP certifications give users the confidence that their equipment won't be damaged.

FIELD READY

The GPS chipset helps users find their location wherever they are. A strong, consistent wireless signal is provided by the strategically placed Wi-Fi 5 (802.11ac) wireless antenna.

SECURITY AND MANAGEMENT

Strong security is serious business and those devices come with the best. Win-based Enduro devices offer the hardware-level TPM 2.0, an anti-tampering chip, and the Acer Enduro Manageability Suite (AEMS) that protects the device and speeds up deployment of services and system configuration across many devices. For further security, it includes a fingerprint sensor and Windows Hello plus to log in.

Android-based Enduro tablet speeds up the deployment of services and system configuration across many devices at the same time with Acer Device Agent Deployment Assistant (DADA) software. Two customizable keys allow quick access to the most important functions, while the NFC reader allows easy reading of NFC chips.

Enduro N7

MILITARY GRADE RUGGEDNESS

Designed with mobile first responders, field and industrial manufacturing workers in mind this durable rugged Windows laptop will work all day no matter where you are. Its bright screen and security features give you the confidence that when outside you can remain productive.

 14" FHD 700 nit display and 15.6" FHD 600 nit display

 MIL-STD 810G and IP65 certification

 2 batteries: 1 built in + 1 high capacity

Featuring a waterproof design for its IO ports, speakers and buttons, this eye-catching, urban style tablet delivers come rain or shine. Weighing a feather-light 627 grams and measuring a slender 9.8mm thin, the Acer ENDURO Urban T1 tablet gets the most out of whatever journey you're a part of.

-  10" FHD (1920 x 1080) resolution 450 nit 10-point touch screen
-  MIL-STD 810G and IP53 certification
-  Antimicrobial Corning® Gorilla® Glass
-  2MP front-facing camera and a 5MP rear camera

ACCESSORIES

With a range of practical solutions designed to increase productivity in the office and make life more efficient and secure while on the road, Acer accessories add an extra level of style and functionality to your device's capabilities.

A black Acer USB Type-C dock III is shown on a white desk. It is connected to a laptop (partially visible on the right) and a monitor (partially visible at the top right). The dock has a blue LED light on its front. The Acer logo is visible on the front of the dock.

Acer USB Type-C dock **ONE DOCK FOR ALL**

Acer USB Type-C dock III expands the capabilities of any laptop, making it perfect for mixed-PC or shared-desk working environments. Simply connect through the single USB Type-C cable for a quick and easy connection to all your workspace peripherals.

- Always-on high speed USB 3.1 Gen 2 type-C port
- Supporting up to triple UHD 4K display setups

Acer Dongle 12-in-1

UNLEASH YOUR LAPTOP FULL POTENTIAL

A USB-C hub that allows you to plug more devices into your computer at the same time.

This pocket-sized portable dock is capable of supporting power delivery up to 100W and extending 3 monitors via HDMI and DP ports.

- Metal case with simple compact design
- 2 x USB3.0; 2 x USB2.0; 1 x SD/TF;
2 x HDMI; 1 x PD; 1 x DP; 1 x RJ45; 1 x 3.5 Audio
- Up to 5Gbps Data transmission speed

Acer Connect M5 5G

THE NEXT GENERATION OF SPEED

Performance and reliability for remote workers and travelling professionals. Access 5G with onboard Ethernet, USB Type-C and Wi-Fi 6 that connects up to 32 devices simultaneously.

- Quickly and easily connect up to 32 users simultaneously over Wi-Fi 6
- 6460 mAh battery pack provides long lasting usage

Acer Halo Swing

SWEET SOUNDS

The Halo Swing offers 10 hours of nonstop, high-quality audio that's capable of blasting over the noise of a party yet crisp enough for the sounds of high-pitched vocals and instruments. Voice-enabled with Google Assistant, the Halo Swing allows to enjoy your media, plan your day, and control your smart home devices.

- Bluetooth® 5.0 and Wi-Fi 6 connectivity
- internal subwoofer and DTS Sound™
- customizable LED display

***Acer Notebook* stand** **ERGONOMIC PRODUCTIVITY**

Made from robust aluminium alloy, this stand can be easily folded flat to take it with you everywhere. It also features an integrated 5-in-1 Docking Station with HDMI, USB Type C and 3 x USB Type-A ports, plus a Type-C cable to connect your notebook.

- Suitable for notebooks from 11.6" to 15.6"
- Triangular support structure for maximum heat dissipation

***Acer Vertical* mouse** **SCIENCE-DRIVEN DESIGN**

Advanced ergonomic vertical mouse aimed at reducing muscle strain, decreasing wrist pressure and improving posture, while providing elevated performance.

- Wireless technology at 1600 DPI
- Vertical and ergonomic shape

***Acer Wireless* optical mouse** **TOTAL FREEDOM**

It easily connects with universal plug and play, and its ergonomic shape is perfect for either left or right handed users.

- 2.4GHz wireless technology with 10 metre operating range
- Up to one year battery life with smart power management
- Solid keycap for long-life usage

Acer Carry case **PROTECT AND SECURE**

The computer carrying case is made of cotton, canvas, and polyester for smoother carrying. It allows to carry and protect laptops of any size, as well as the accessories that needs be transported together with the PC.

Acer Protective sleeve **ON THE GO PROTECTION**

The Acer Protective Sleeve fits most 15.6" laptops, it's water resistant to keep your device safe no matter where you go and it features a solid front pocket for easy and secure storage.

- Water resistant with durable metal pullers
- Suitable for most laptops up to 15.6"

PARTNERS : OUR FAST TRACK TO YOU

Acer's certified resellers offer industry-leading expertise to help customers make the right choice when selecting their hardware devices and support them every step of the way as their business needs evolve.

At Acer, we've built our success on a culture of innovation and productivity that allows us to anticipate market trends and deliver cutting-edge devices and best-in-class service through our long-standing relationship with our partner network.

Our channel business model allows us to deliver the simplicity, efficiency and proximity our strategic partners depend on to satisfy customers need. For that reason we created the Acer Synergy Partner Program.

RELIABILITY PROMISE

Buying a selected Acer device, if your machine suffers a technical fault in the first year from invoice date, we'll not only repair it but also give you a full refund on the cost of the device.

You just need to register your new device within 30 days of your purchase date to activate our Reliability Promise for the next 365 days.

We are so confident of the quality of our products that we're proud to offer the Acer Reliability Promise across the entire professional range.

RELIABLE
IS NOT A WORD
IT'S A PROMISE

GREEN REWARDS

Acer GREEN Rewards is a trade-in program that helps mid- to enterprise-level customers become more sustainable by returning their old devices for recycling, in return for credit towards a new purchase.

This program not only provides an interesting financial incentive, it also provides an instant carbon offset impact calculation, allowing customers to see the environmental impact of their purchasing decisions, and a welcome green message they can leverage within their organisation.

SMART FINANCING

We offer leasing as we strive to reduce the impact of our products on the environment.

Through sound design, we make products that are more effective and have longer useful lives, while also supporting the reuse of resources in manufacturing. Through leasing, we add the benefit of an economic incentive to a more sustainable approach to technology.

In fact, the change in cash flows – **from one-off upfront payments to monthly licensing fees**– gives customers fresh financial firepower and resellers lower financial exposure, while the refurbishment, remanufacturing, reusing or recycling of technology at the end of its lifecycle helps to reduce the electronic waste.
