DRINKWARE 2020

NEW FOR
2020!

YOUR IDENTITY IS UNIQUE WE'LL PROVE IT

In a competitive world, you need something that makes your unique identity stand out. The more choice you have, the easier it is to find the perfect solution. With thousands of items, in all kinds of colours, waiting to be decorated just the way you want, we give you all the inspiration you need to

create outstanding promotional items.

Our superbly broad range gives you options for every purpose and every preference at every price point. Browse through and see what inspires you. And contact us for any further information or guidance you need.

THOROUGH SUSTAINABILITY

We strive to operate with sustainability in mind at all times. The products we sell are manufactured in a responsible and ethical fashion and abide by national regulatory requirement norms in each of our markets. These very norms allow our production experts to identify any issues early on in the development phase that might not comply with the aforementioned norms and hinder our sustainable production methods.

Product compliancy is also monitored throughout the entire production life cycle. We work hard to meet our customers' high expectations and transparency requirements for the European markets. Up-to-date regulations are made readily available during the production life cycle ensuring products are compliant down to the very last detail. All products are subject to compliancy reviews prior to and after launch at both our own testing facilities and at third party testing labs.

Our solid quality-control methods ensure that the products you'll choose for your brand can be sold and used with confidence.

GOVERNANCE

Sustainability is an ethical imperative that we follow at all corporate levels. In partnership with our supply chain, we aim at continuous social, ecological and economic improvement in the sourcing of our products, the products themselves, our logistics chain, and our own production and branding facilities.

PRODUCTS

The way we assure product responsibility adds extra value to our promotional products. We are continuously improving our Product Portal, e.g. with information on compliance with European REACH and RoHS chemical requirements, as well as voluntary sustainability standards such as OekoTex certification.

CUSTOMER

For the customers of promotional goods, sustainable branding becomes increasingly important. Their credibility builds on transparency, reliable sourcing and sustainability of both the production process and the promotional product itself.

In partnerships for progress with our vendors and through engagement in multi-stakeholder initiatives, we aim to build ethical global supply chains. Through our factory audit program, we work towards enhanced social standards, improved working conditions for factory workers as well as environmental risk mitigation.

SOURCING

amfori  **BSCI**
Trade with purpose

PRODUCTION

For our production facility and pan-European logistics center, environmental excellence is a win-win strategy. Its ISO 14001-certified environmental management aims at continuous improvement of environmental indicators. Long term investments are showing results, e.g. in the reduction of materials and energy consumption.

WHEN YOU ARE LOOKING FOR A PROMOTIONAL PRODUCT TO CARRY YOUR LOGO, YOU WANT IT TO BE COMPLIANT WITH EUROPEAN LAW AND IF POSSIBLE A MORE SUSTAINABLE OPTION THAN JUST A TRADITIONAL PLASTIC GIVE-AWAY.

But then the question arises, what is a more sustainable option? With thousands of promotional products available and a lot of discussions about what is sustainable and what is not, we have opted to look at our Green Concept from the Reduce-Reuse-Recycle perspective.

REDUCE: many promotional products are made of different types of plastics. By selecting products that have reduced plastic content, for instance because they are made of a mix of natural fibres and plastics, you are contributing to the reduction of the overall amount of plastic used.

REUSE: we believe this is one of the most important messages you can give with a promotional product. Reuse the items for a long time. More countries are banning single-use plastics like cups and cutlery. Reusable coffee mugs support this sustainable target and are a great canvas for your brand. The same applies to cotton or jute totes instead of plastic bags.

RECYCLE: we are actively developing products made of recycled material, like our Americano® coffee tumbler on the cover. This tumbler is made of the waste material of all Americano® tumblers that we produce, thus making our whole Americano production more sustainable! But you will also find recycled paper products, recycled glass, recycled PET umbrellas and bags, even pens made of recycled bottles. When looking at recycling, the possibility of recycling after use is also a factor that we look at.

So, are the Green Concept products in this catalogue 100% certified sustainable – no. Do they represent our suggestion for a more sustainable choice when you are looking for a promotional product – yes! We are constantly developing new products. For them to be compliant and sustainable is the first priority, but it is a process, it will go step by step. Our Green Concept will expand every year, continuously providing you with more choices for sustainable promotional products.

Enjoy!

DRINKWARE INSULATION CHART

Based on successful retail drinkware pieces, we have designed a better way to drink with style. Whether you prefer your beverage HOT or COLD.

Insulation refers to how the materials and construction prevent temperature change – basically, the ability of a piece to keep a beverage at its original temperature, whether it's hot coffee or ice water. Insulation is achieved

through double-wall construction, which has two purposes – to eliminate condensation from cold beverages on the outer wall and maintain the temperature of the beverage within the inner wall.

There are several types of insulation, and we offer them all. It just depends on your budget and the type of performance you're looking for.

Hours indicated may vary depending on item construction, material, ambient conditions, and use.

YOUR FINISHING TOUCH

Custom decoration is a great way to reinforce your brand identity. Especially if, as shown throughout this catalogue, you apply it to multiple items. A wide choice of quality techniques, including the impressive new textile method HXD, means you can get both the look you want and the quality you need.

Whether you prefer cool and subtle, distinctively stylish or to boldly grab attention, you can rely on us for expert service. Feel free to ask us for advice and inspiration.

HXD
LASER ENGRAVING

Unique decoration method • Add dimension to a logo • Perceived value of Embroidery combined with colour range and detail of True Edge Transfer • Durable • Available for a wide range of garments • Max print area: 100 x 75 mm

PADPRINT

Create a high-class impression • Unique tone on tone • Best on mid-range colours • Unlimited washability

DIGITAL PRINTING

Great all round cost effective solution • Can be applied on virtually any shape • Suitable for any surface texture, including soft products like stress balls • Perfect for multi coloured logos • Fast and economical

DEBOSSING

Perfect for multi coloured logos • Create a unique effect with matt, gloss or embossed finishes • Strong resistance to fading or damage • Ideal for small quantities • Can only be applied to flat or slightly curved surfaces

DOMING

Striking 3D appearance • Subtle tone on tone look • Great for real and imitation leather products • Ideal for waterproof fabrics • Unlimited washability

EMBROIDERY

Create a 3D effect • Strong resistance to fading or damage • Can only be applied to flat surfaces

INFUSION

Classic decoration technique • Suitable for both flat and irregular surfaces • Tread colours to match any logo • Up to 12 colours per embroidery • Perfect for left/right chest and left/right bicep

TRANSFER

Create an untouchable decoration with razor sharp detail • Offers a comfortable, breathable decoration • Offers unlimited colours for one set up

SUBLIMATION

Ideal for fabrics • Perfect for logos with many colours • Allows for extreme detail like small text • Economical solution for multi colour printing or smaller quantities • Maintains integrity of waterproof fabrics

SCREENROUND

Premium full colour photorealistic prints • Suitable for polyester fabrics (minimum 60% polyester) and polymer coated products • Soft, flexible imprint that can even be applied over seams and zips • Decoration is resistant to fading and cracking • Only suitable for white products

HOTSTAMPING

Long lasting results • Apply sharp, high quality decoration on curved products • Economic choice for large quantities • Multi colour decoration available on a selection of pens • Ideal for text

SCREENPRINT

Exceptional superior impression • Ideal for real and imitation leather product • Available in silver and gold finish

DIGITAL STICKER

Long lasting results • Good cost effective solution for larger quantities • Allows single and multi colour decorations • Great choice for a distressed look and feel • Can only be applied to flat surfaces

Excellent print quality and details • Regularity of sticker shapes • 50cm2 max size • 4 days lead time from e-proof approval
