MORE THAN GIFTS COLLECTION

A broad selection of carefully selected useful gift items available from stock. Through our quality printing service, we guarantee a maximum brand exposure for any event or campaign.

The newest and most functional promotional ideas covering all major product categories. Personalised and delivered at the highest speed.

A NEW STEP WITH CUSTOMISED GIFTS

Bringing personalisation to the next level. The yourChoice product programs allow you to create a unique product in just a few simple steps. Essential products in small quantities and short lead-times.

yourChoice
customized gifts

Customised gifts is more than a possibility. Countless options to customise your preferred item in your preferred colour or shape with unique print possibilities.

A GIFT MUST BE SAFE

Compliance & quality Commitment.

The More Than Gifts products are assessed carefully and comply with EU safety, health and environmental requirements. To ensure all products meet the European qualification criteria, quality assurance tests have been performed by independent and certified testing institutes and all relevant test reports are available and are not older than 3 years.

Responsible chain management.

We take the working conditions within our supplier factories very seriously. In order to achieve industry-wide improvements, we are a member of amfori BSCI (Business Social Compliance Initiative), a group of over 2400 companies that works to ensure that conditions in both our own operation as well as our suppliers' factories are appropriate, safe, and meet legal requirements. amfori BSCI conduct independent, third-party audits on our behalf. This is an ongoing process, suppliers' factories are in an audit cycle which will not be closed.

RESPONSIBLE COLLECTION

This collection of daily enjoyable functional items is carefully assessed to increase brand-awareness whilst assuring a respectful use of materials and a longer-lasting product. Ensuring that our actions incorporate these beliefs means rethinking every step of the product development process and our entire operation. Integrating sustainability in the material selection, production, personalisation and packaging methods are examined and potential improvements are continuously implemented. We are committed to conduct business in a responsible and trustworthy manner.

More sustainable materials. Whenever possible, and whilst focussing upon functionality and quality, the More Than Gifts collection is, where relevant, gradually upgraded or substituted with newer and more sustainable materials. This means selecting high quality materials that are recycled or lend themselves to recycling, materials derived from renewable sources and ethically sourced. The centrepiece of this is supporting our suppliers in implementing innovative processes to produce more sustainable materials.

Reduce waste. In the way we interact with our environment, unnecessary waste is no longer an option. Replacing disposable products made of non-renewable resources by reusable products or biodegradable materials is an important step forward. Also rethinking the way we pack and distribute goods give opportunities to reduce waste. As of 2018 we started to streamline box sizes and packaging methods in order to reduce the amount of polybags and cardboard used. Ongoing individual item packaging is being evaluated and streamlined to offer a smarter solution.

A young man with a beard and glasses, wearing a green sweater, and a young woman with short grey hair, wearing a grey cardigan over a white shirt, are sitting together and smiling while looking at a blue tablet. The man is holding the tablet, and the woman is pointing at the screen. They are in a relaxed setting with pillows in the background.

TECHNOLOGY & ACCESSORIES

A photograph of four people in an office setting. A man with a beard and short hair is seated at a table, looking towards the camera. To his right, a woman with blonde hair and bangs is seated, looking towards the right. Next to her, another woman with dark hair in a braid is seated, also looking towards the right. A fourth person, a man with short brown hair, is seated on the left, seen from the back. They are all seated at a light-colored wooden table. The background shows a large window with a view of a city. A semi-transparent grey rectangle is overlaid on the center of the image, containing the text 'OFFICE & ACCESSORIES' in white, bold, sans-serif capital letters.

Printing Techniques

Having your logo printed with the widest range of printing techniques has never been so easy. These are the main techniques used to print your logo.

Sublimation

SUBLIMATION

Sublimation is one of the few methods you can print full coloured images onto hard surfaces or polyester coated items. Number of colours is unlimited for complete customised logos.

DOMING

The doming procedure consists of printing the logo on a self adhesive label domed with an epoxy resin layer. It is a durable solution and cannot be easily scratched or dented.

DIGITAL LABEL

Digital Label is used on items where no other technique can be applied. With his method full colour label is printed and stuck on the most optimum position of the product.

DIGITAL PRINTING

Digital printing is done by placing the product under a four color digital printer. Compared to the conventional technique it is a more environmental friendly solution.

DIGITAL INLAY

Digital inlay is a piece of paper, printed on a four colour xerographic printer which offers photographic image quality and sharp text, it is then placed in the selected print template position.

BUTTON

The print is carried out prior to assembly of the item. This allows for a full customised design.

DIGITAL TRANSFER

Digital Transfer is one of the most popular methods for full colour logos and designs. This Four Colour Process hits over thousands of colours resulting in a photographic quality decoration.

SCREEN TRANSFER

Economic option for simpler designs. The logo is printed on a sheet by means of serigraphy (which allows 1 to 8 colours) and then transferred to the product.

CERAMIC TRANSFER

The technique of ceramic transfer printing is applied to ceramic promotional cups and items where the logo is printed on a sheet and transferred by water.

SCREEN PRINTING

Main advantage of screen printing is the unique result you can achieve. It can be applied on a variety of materials but mostly used on fabrics since a larger size can be achieved.

PAD PRINTING

Pad printing is a technique where rubber stamps are used to print the logo on the item. With this technique you achieve a sharper finish and a perfect colour matching (PMS) is achievable.

ROUNDSCREEN

Round screen printing is a method that allows round personalisation. It is an optimum solution for the popular reusable bottles since, due to its form, the print position is larger than can be achieved using the traditional printing method.

EMBOSSING

Embossing is a popular technique for marking products made of leather, PU or cardboard. The logo is stamped on the material being sunk and making it indelible.

EMBROIDERY

Embroidery is a very popular technique in products such as caps, textiles or advertising bags where the finishing touch is in the sewn logo with woven threads.

LASER ENGRAVING

Laser engraving can be applied to items made of natural materials like wood and metals. With laser engraving the result of branding is precise, clean and permanent.
